

SAFETY ADVISORY

BOIL WATER ADVISORY IN EFFECT

Monday, June 24, 2024

Churchill Falls residents are advised to bring water that may be ingested to a **rigorous rolling boil for at least 1 minute** for items such as:

*Drinking | Brushing teeth | Preparing infant formula/cereal |
Washing fruits & vegetables | Cooking | Making ice |
Preparing hot & cold beverages from powders/concentrates*

This advisory was necessary as an operational requirement as we supported the additional water pressure required for the portable sprinkler system while maintaining infrastructure. The town's water supply has not been affected.

We will notify you once the advisory is lifted.

Thank you for your understanding and cooperation.
